

2017-2018 LITTLE LAMBS DIRECTORY

We will be compiling a staff/student directory for all our preschool families. This directory will be a reference for our teachers when they need to call a student's parents or send out postcards, and parents can also use it for calling each other or sending birthday party invitations, etc.

To protect your privacy, only the information that you as a family are willing to share will be published. This directory will only be given to Little Lambs staff and the parents of students currently enrolled. If you do not want any information included in this directory, please check the first box and sign at the bottom.

I ask that our name and information not be included in this directory, other than our child's name in the class list. *(Please sign and date at the bottom.)*

You may publish our name and the following information in this directory. *(Only fill in the lines of information that you are willing to have published.)*
